“Eight years after my first experience with Journey of Hope I’ve decided to head back out on the road to raise money and awareness for people with disabilities yet again. Since my last trip I’ve graduated once (BSE), and expect to graduate again soon (MS). I’ve gotten married and moved to Germany. Yet I still consider the Journey of hope the most life changing event I’ve ever experienced. So I’ve decided to return again, not just to change my own life, but also the lives of the many people Push America reaches each year.”
